PROFESSIONAL SUMMARY

Industrial Designer and Mechanical Design Engineer with experience developing products from concept to production. Skilled in CAD modelling, technical drawings, prototyping, and design for manufacturing. Comfortable working across design, engineering, and production.

WORK EXPERIENCE

Industrial Designer & Mechanical Design Engineer TUS Metallbau

Jan 2024 – Present
Paderborn, Germany

- Design and develop balcony systems, canopies, railings, steel structures, and glass facades, ensuring compliance with local engineering and building standards.
- Create 3D models, assemblies, and production drawings.
- Formulate comprehensive Bills of Materials (BOMs) and support material procurement and production scheduling.
- Carry out on-site measurements and incorporate site constraints into CAD models.
- Ensure designs are optimized for manufacturing methods, tolerances, and efficient assembly processes.

Industrial Design Intern TUS Metallbau

Jan 2023 – Jan 2024
Paderborn, Germany

Mechanical Design Engineer ITU ROV Team

Aug 2022 – Jun 2023
Istanbul, Turkey

- Designed watertight enclosures, structural chassis, and mechanical mounting systems for Remotely Operated Vehicles (ROVs).
- Worked closely with electronics, software, and control teams to integrate mechanical components.
- Integrated mechanical components with underwater sensors and propulsion systems.
- Represented ITU globally, securing 3rd Place at the prestigious international MATE ROV Competition (Norway).

Product Design Intern Robotistan

Feb 2022 – Aug 2022
Istanbul, Turkey

- Developed Arduino-based educational robotic kits from concept to physical prototypes.
- Designed injection-molded plastic enclosures, custom snap-fits, and mechanical linkages, integrating microcontrollers.
- Created product renderings and technical illustrations for assembly manuals.

EDUCATION

B.Sc. Industrial Design Istanbul Technical University (ITU)

2018 – 2023
Istanbul, Turkey · GPA: 3.46/4.00

Specialized in user-centered product development, product sketching, physical prototyping, and CAD modeling. Developed multiple design projects from initial research and ideation to manufacturing preparation.

TECHNICAL SKILLS

CAD

HiCAD, SolidWorks, Rhino, Fusion 360, CATIA, Alias

RENDERING

KeyShot, V-Ray, Blender

ADOBE

Photoshop, Illustrator

PROTOTYPING

3D Printing, Mock-Up Making, Hand Sketching

LANGUAGES

Turkish	Native
English	C1 (Advanced)
German	B1 (Intermediate)

HONORS & AWARDS

- | | |
|------|--|
| 2023 | FURNITUR 2023
Prize & Mention – Türkiye Tasarım Vakfı |
| 2023 | Graduation Awards
Second Prize – Istanbul Technical University |
| 2022 | Design for Export
Finalist – OAIB & Ministry of Commerce |

LICENCE & HOBBIES

LICENCE

Driving Licence A2, B

INTERESTS

Motorcycling, Swimming, Cooking, Traveling
